List of Classes

- Map
 - enum Directions
- Pacman
- Ghost
 - enum GhostStatus
 - GhostRed
 - GhostBlue
 - GhostPink
 - GhostOrange
- Scene
 - SceneMenu
 - Button
 - SceneSetting
 - SceneMain
 - SceneEnd

```
Map
- wallnum: int.
- beansCount : int
+ row num: int
+ col num : int
+ beansNum: int
+ map : char **
- draw cherry(int, int): void
- draw strawberry(int, int): void
- draw block index(int, int): void
- draw_bean(int, int): void
- draw power bean(int, int): void
+ Map(char *)
+ \sim \text{Map}()
+ draw() : void
+ shortest_path_direc(int, int, int, int) : Directions
+ is_wall_block(int, int) : bool
+ is room block(int, int): bool
+ is_wall_point(float, float) : bool
```

+ is room point(float, float): bool

Pacman

- imgdata : bitmapdata
- color : int
- powerUp : bool
- move_sprite : ALLEGRO_BITMAP *
- die_sprite : ALLEGRO_BITMAP *
- + objData : object
- + speed: int
- + death_anim_counter : ALLEGRO_TIMER *
- movable(Map *, Directions) : bool
- + Pacman()
- $+ \sim Pacman()$
- + draw() : void
- + move(Map *) : void
- $+ \operatorname{eatItem}(\operatorname{char}) : \operatorname{void}$
- + NextMove(Directions) : void
- + die(): void

Chost - imgdata : bitmapdata - flee_sprite : ALLEGRO_BITMAP * - dead sprite : ALLEGRO BITMAP * # move sprite: ALLEGRO BITMAP * + obiData : object + speed : int + previous timer val: int64 t + status : GhostStatus + Ghost() + ~Ghost() + draw() : void + move(Map *): void + NextMove(Directions): void + printGhostStatus(GhostStatus): void + movable(Map *, Directions, bool) : bool + toggle FLEE(bool): void + collided(): void + move script GO IN(Map *): void + move script GO OUT(Map *): void + move script FLEE(Map *): void + move_script(Map *) : void + move script BLOCKED(Map *) : void + move script FREEDOM(Map *) : void

Ghost Red

+ GhostRed() + ~GhostRed()

GhostBlue

+ GhostBlue() + ~GhostBlue()

GhostPink

+ GhostPink() + ~GhostPink()

GhostOrange

+ GhostOrange() + ~GhostOrange()
